A view and chosen experience by Lake Velenje.

Climb to an attractive viewing platform for panoramic views of Lake Velenje or attend one of the many events held at the lake's mouth.

All of this and more can be found in a park overlooking Vista.

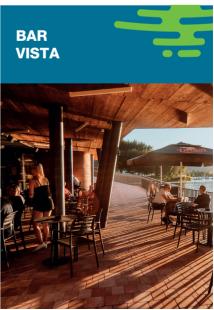

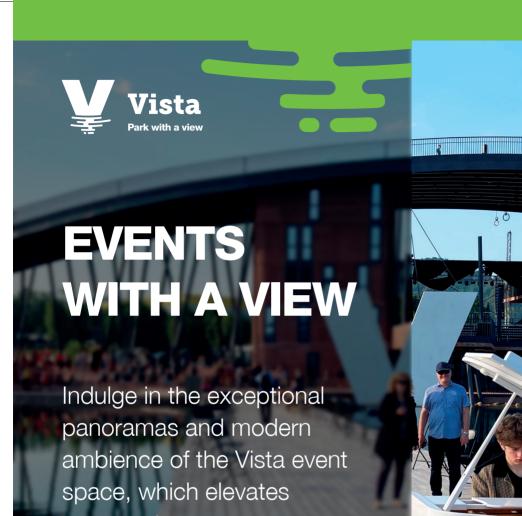

any event.

The park overlooks Vista from a large or small stage, and there is always something going on, and the entire complex is designed to invite you to a variety of mass or small events.

Events that take place on the lake's shore

Vista's distinctively designed private space adds a new dimension to events by being **open on both land and lake** and offering a variety of happenings in both directions. Concerts and cultural events, sports, social and educational events, and festivals are just a few examples. Choose based on your preferences.

A stage designed specifically for spectacular events

The entire Vista Park complex has just over 46,000 m² of landscaped space, which can accommodate events with up to **30,000 visitors**. The event stage is extremely large, measuring **up to 2,300 m²**. This is one of Slovenia's largest stage areas, and it also provides excellent technical support for the execution of large and demanding events. For events with fewer attendees, a **smaller stage** is also available.

VIEWING PLATFORM

Climb 14 meters to the viewing platform and enjoy the view all the way across Lake Velenje to the slopes of Peca and Paški Kozjak. On the other hand, do not overlook the views of Velenje and the settlements scattered throughout the hilly surroundings.

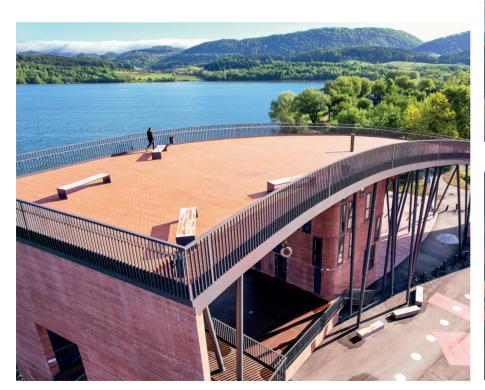

Step along the easy slope that rises above Vista Park's event stage, and your view of the world around Lake Velenje will change. Every day of the year, you can enjoy the views from Vista Park's high platform, which is also accessible to the disabled. The park platform is open to the public for free.

On the roof of the event stage

The extraordinary design of the Vista viewing platform provides an unusual experience, as you climb the walking roof of a large stage. It rises up to 14 meters in height and is easily accessible via a gentle slope that is accessible to all visitors.

A breath-taking view of the lake from afar

The Vista platform provides stunning views of Velenje Lake and its surroundings. Kinta Kunte, an interesting garden settlement, can be seen to the east. The surrounding hills (Lubela, Vodemlja, Razborje) and **Uršlja gora** can be seen to the north, with **Peca** in the background. **Smrekovec** and **Golte** can be seen to the west, and the town of Šoštanj can be seen in the valley. The valley is enclosed on the south side by the surrounding hills, below which is Pesje, and in the immediate vicinity is the Jezero recreation centre. The **town of Velenje** is on the south-east side, and the view opens onto the **Paški Kozjak**.

A PARK FOR ALL GENERATIONS

It is the ideal location for swimming, playing, relaxing, celebrating, and having fun. You are welcome to stroll along the paths, which lead to children's and sports playgrounds, as well as areas for cyclists, skateboarders, and rollerbladers.

Come by foot, bicycle, or skateboard

Vista Park's surroundings invite you to stroll on the **walking paths** among the islands of greens, which are home to over 11,000 newly planted ornamental trees and shrubs. The platform designed for **cyclists**, **skateboarders**, and **rollerbladers** will delight you. Because we are near the water, there is also a **pier that reaches 50 meters away** and invites you to examine the water's surface closely.

While sailing with the boat Pozoj or riding a stand-up paddleboard, you are in for a real adventure. However, you may prefer to swim because the water is of high quality and calls for a refreshing swim.

Playgrounds for children and adults

Sports enthusiasts will also feel at home in Vista Park. To keep your body and soul moving, there is a **tennis court**, a **beach volleyball court**, and even a bowling alley. There is also a **playground with a variety of jungle gyms** for the little ones, where they can discover mischievous ways to exercise. The surrounding meadow and park areas provide complete relaxation for those seeking nature.

Anancus and mastodon

Interesting sculptures of anancus and mastodon remind us that trumpeters lived in the Šaleška valley **3.6–2.5 million years ago**. The fossil remains of trumpeters discovered in Škale in 1964 are housed in the **Velenje Museum** at Velenje Castle, where you can also see a life-size anancus.

WEDDING WITH A VIEW

Wedding on Vista's pier with a charming view, surrounded by water and nature.

Just for you. Sounds dreamy? It is. And we are here to make your dreams come true.

You can exchange your fateful I DO on the park's viewing platform or pier with a view.

When the weather is nice, you'll have a lake and lake paradise as a backdrop for wedding photos, and the romantic sunset will delight you and your guests at the end of the day.
